No U.S. Military housing on Mt. Atagoyama development site

We oppose to any plan, suggestion, and action to divert the use of Mt. Atagoyama development site for the purpose of building the U.S. Military housing because;

1. It severely threatens the life of citizens, natural resources in and around Mt. Atagoyama, and destroys the culture and natural treasure that people of Iwakuni has long protected and cultivated.
2. The plan for the best use of the Mt. Atagoyama development site has to be made by discussion with local citizens as they have the fundamental rights of living.
